CREATING WELCOMING ENVIRONMENTS

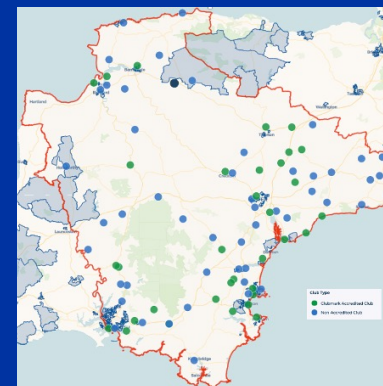

5.0 WAYS TO IMPROVE YOUR CLUB FACILITIES

IDEAS FOR A £25,000 BUDGET

If a £25,000 budget is available to your club, then any combination of the previous elements, or one of the following improvement works should be considered:

<p>First Impressions and Overall Feel</p> <p>Internal Redecoration throughout the Pavilion</p> <p>An attractive, clean, well maintained and uncluttered Pavilion will feel more welcoming to all visitors. A full scheme of internal redecoration can make a big impact in encouraging people to look forward to spending time at your Club.</p>	<p>Changing and Sanitary Facilities</p> <p>New Flexible Changing Room</p> <p>Depending upon the layout and amount of space available within your Pavilion, it may be possible to reconfigure an area in order to create a new smaller flexible Changing Room. This could be used during moved games to create an additional space for female or junior players to change and shower in service. It is important that any new changing facilities are designed to be fully accessible to all.</p>
<p>Club and Spectator Facilities</p> <p>Club Room Refurbishment</p> <p>A full overhaul of the Club Room, including redecoration, new furniture, lighting and a new bar area could make a significant impact on how the space is used by all users of the Club. This may also allow your Cricket Club to offer more community and social events, attracting a wider variety of people to your club.</p>	<p>Redecoration / Reconfiguration to Existing Changing Rooms</p> <p>Depending upon the condition of the current facilities, and the availability of separate female and junior changing areas, it may be appropriate to make improvements to your existing changing facilities. Modernising the existing Changing Rooms and adding individual shower cubicles in blocks of communal showers could make a big difference to helping people to feel more welcome within your club.</p>
